For this week: In the Oregon TMDL Litigation negotiations, NWEA rejected EPA's last settlement offer prior to NWEA's court brief which is due 11/24.

Oregon submitted its final 2012 List of Impaired Waters on 11/5/14 to EPA for approval/disapproval action. The List is incomplete.

Upcoming: EPA and Ecology are in the midst of planning a policy level meeting to seek better coordination between the agencies on non-point source strategies and activities. This is a meeting need that originated from PPA discussions.
